STAKEHOLDER BRAINWRITING TEMPLATE

round
4

INTO THE ECOSYSTEM

Take an even wider look at the ecosystem. Consider if anybody else might have an interesting stake in this issue.

- 13** Who else might be affected by the issue?
- 14** Who else might be helpful in addressing it?

round
1

USUAL SUSPECTS

Start by adding some usual suspects.

- 1** Who are primary users? Which user groups are more likely to experience the issue?
- 2** Who are key customers? Who pays for offerings or operations influencing the issue?
- 3** Who are key suppliers? Who provides materials or resources for the offerings or operations in the context of the issue?
- 4** Who are key collaborators? Who are collaborators in developing these offerings or operations?

round
3

DOWN THE CHAIN

Take it a step further down the chain.

- 9** Who are secondary users? Which user groups are impacted by the primary users' experience?
- 10** Who are customers' key customers? Who receives offerings from the key customers, whose needs do they serve?
- 11** Who are suppliers' key suppliers? Who do the suppliers receive (raw) materials or resources from?
- 12** Who are collaborators' key collaborators? Who else do the collaborators work with to develop new offerings, operations, or other solutions?

round
2

EXTREME USERS

Consider who might be disproportionately impacted by your issue.

- 5** Who might struggle to use the current solution, for example due to their permanent or temporary physical attributes and abilities?
- 6** Whose expressions or experiences might be undervalued in relation to the issue, for example due to their gender, ethnicity or sexual identity?
- 7** Who might struggle to access the current solutions, for example due to their social status, wealth or education?
- 8** Who might struggle to participate equally in the issue, for example due to their language skills, neurodiversity or sensorial experiences?

INSTRUCTIONS

Individually, write down stakeholders (people, groups, organizations) relevant to your chosen issue, each on a separate sticky note without sharing with your group members. You have five minutes for each round, aim to identify at least two stakeholders in each question.

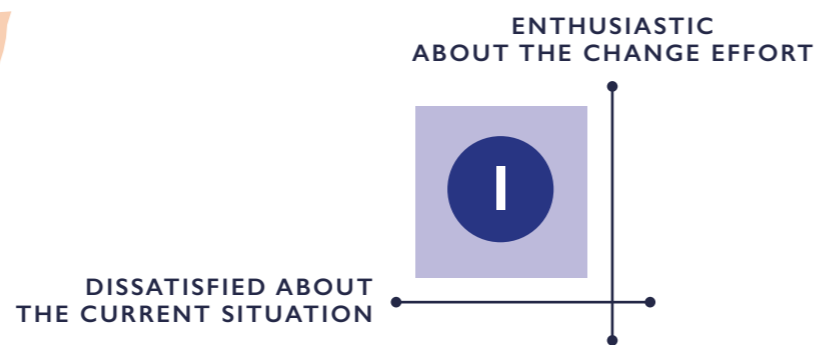

SUPPORTING STAKEHOLDER MAP

INSTRUCTIONS

Review the map quadrants and discuss who you might want to, need to, and be able to engage with.

Stakeholders in this quadrant are often **Potential change agents**. They could become ambassadors of your project or concept. Consider talking to change agents if you feel good about your idea but need more buy-in or if you need help advocating for your project.

Review the stakeholders you placed in this quadrant of the map and pick one or two priorities.

Stakeholders in this quadrant are often **Potential informants**. They could help you better understand present issues. They are likely to be willing to share their concerns but less likely to participate in supporting your change effort. Consider talking to informants if you are unsure you are targeting the right issue or would like to increase your understanding of different needs.

Review the stakeholders you placed in this quadrant of the map and pick one or two priorities.

Stakeholders in this quadrant are often **Potential codesigners**. They could help generate more ideas and elaborate ideas through testing. They are likely to help improve your idea but less likely to advocate on your behalf. Consider talking to codesigners if you would like to explore new solution directions or are unsure your solution fully tackles the identified issue.

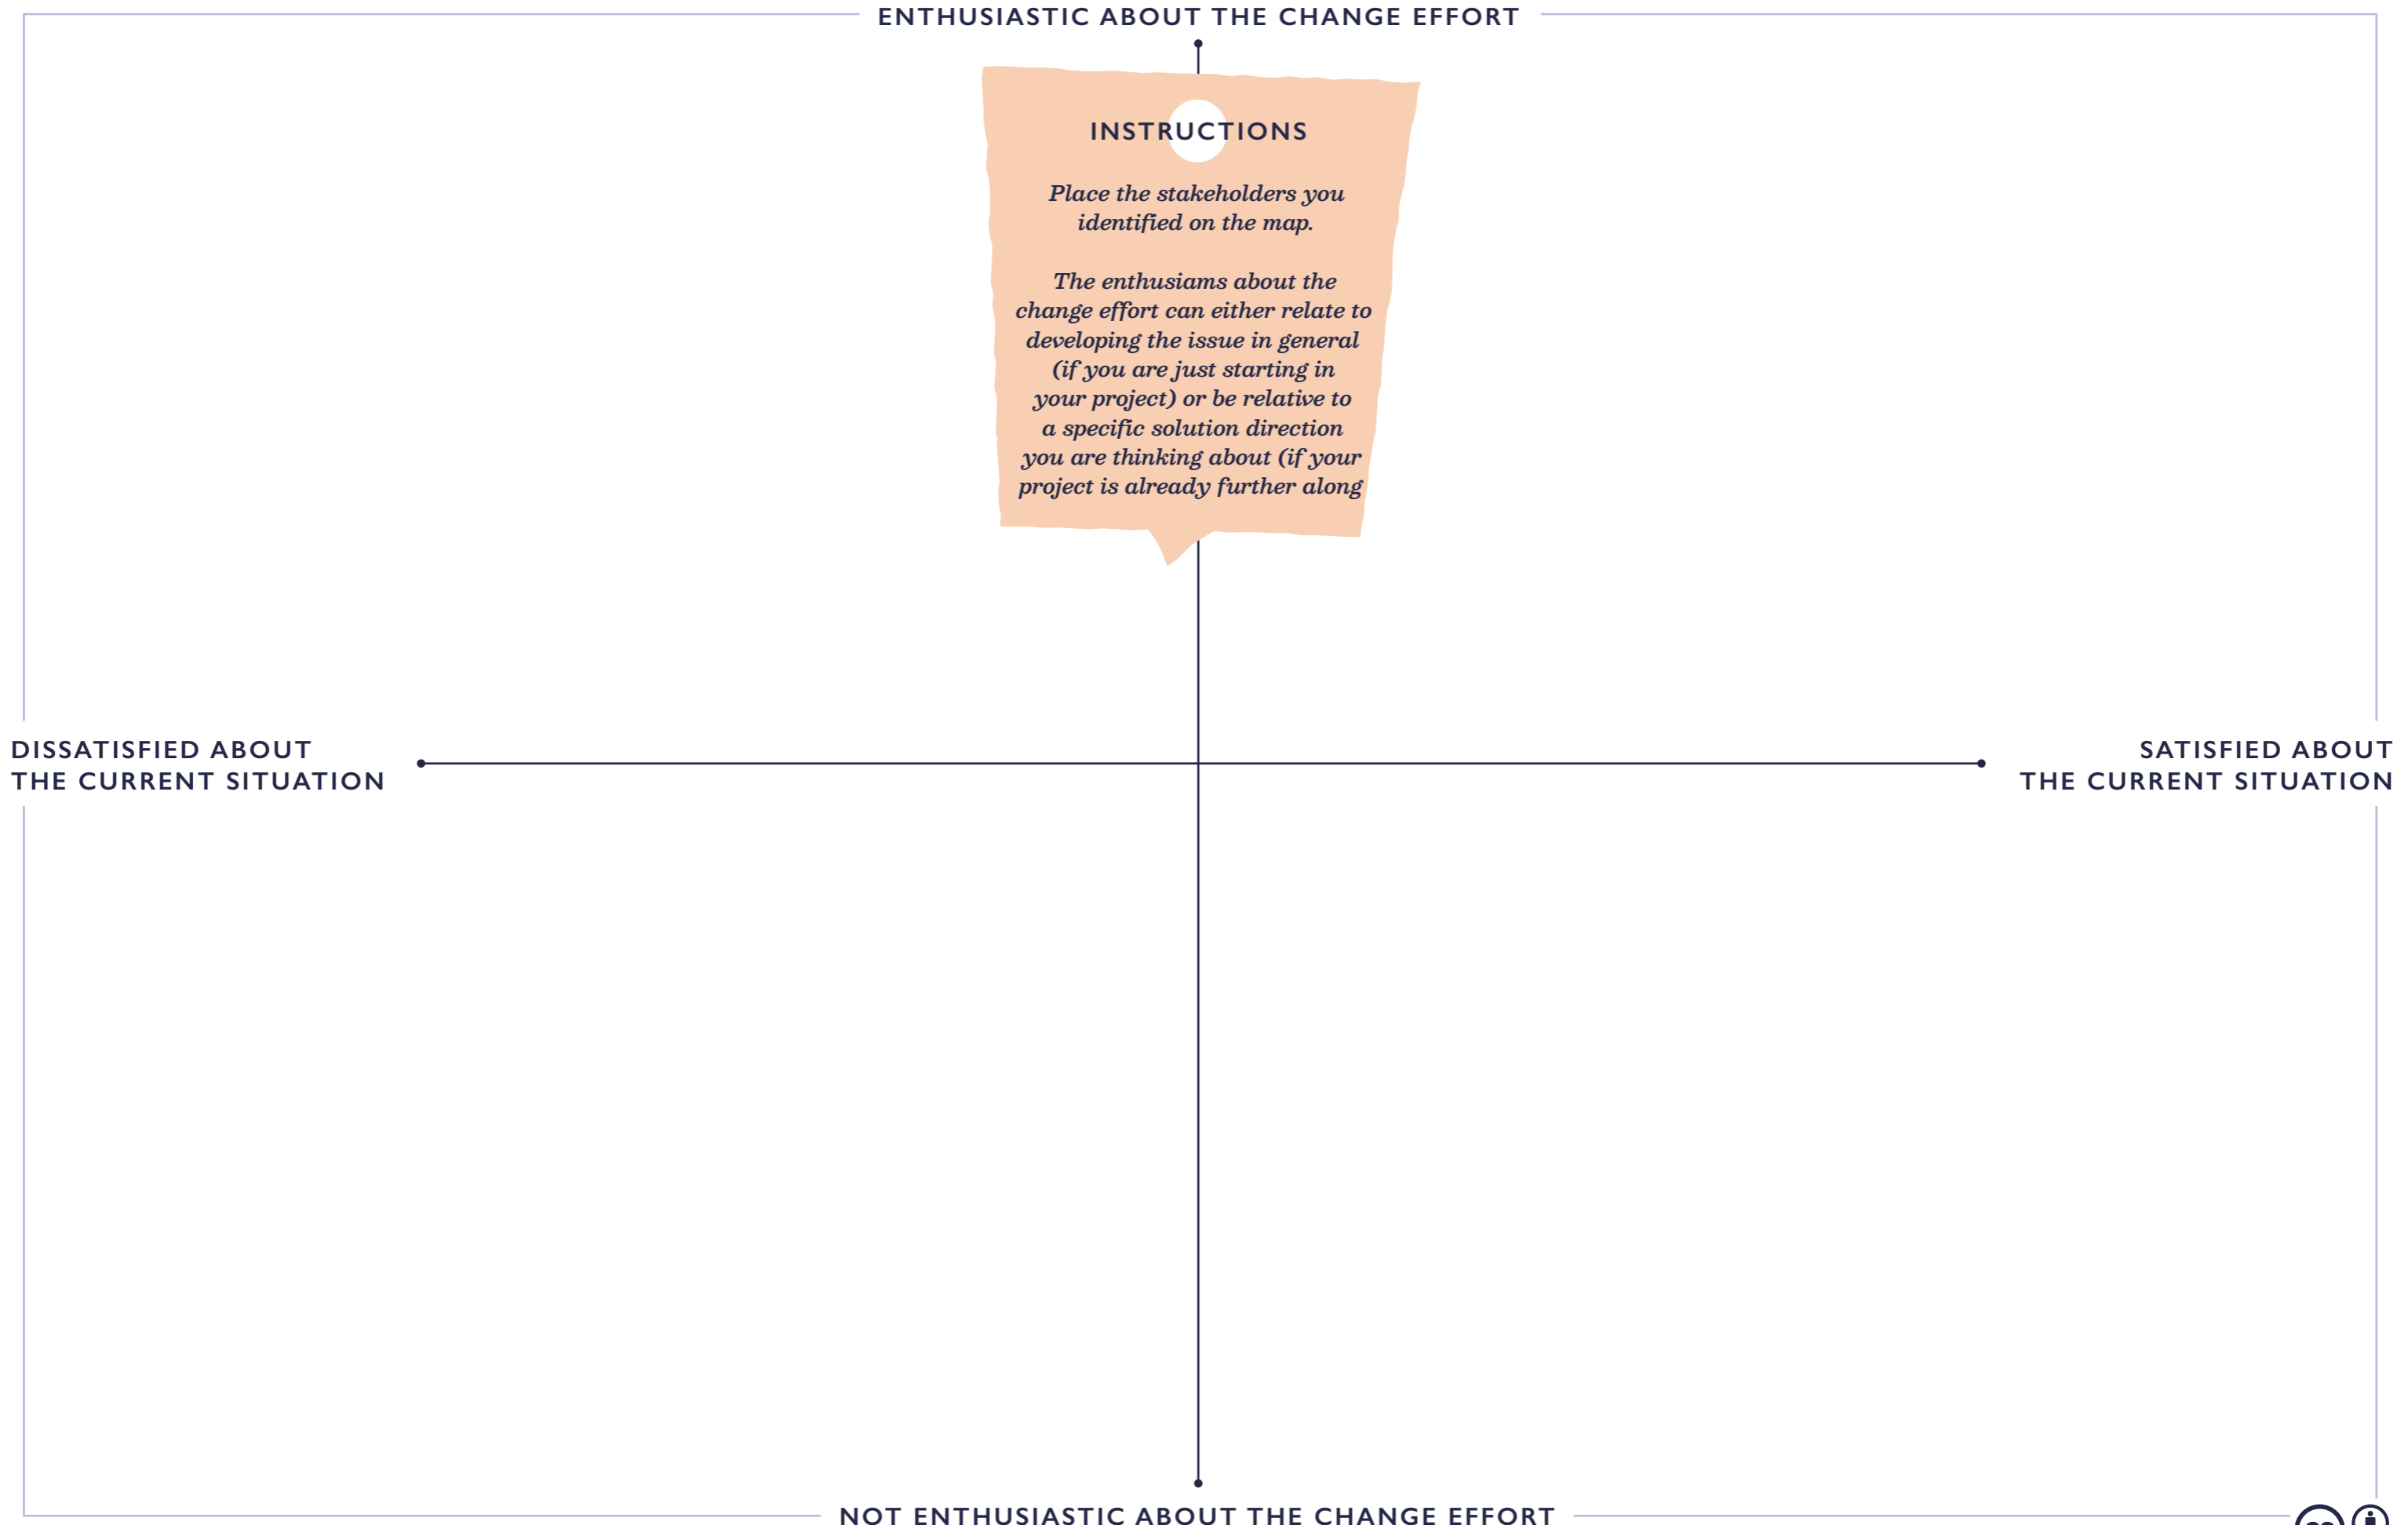

Review the stakeholders you placed in this quadrant of the map and pick one or two priorities.

Stakeholders in this quadrant are often **Potential skeptics**. They can be more difficult to motivate, but you might still need their support or buy-in. If that's the case, you could think about how you could demonstrate the effects of the issue you're trying to tackle or the benefits of a solution you've developed to build enthusiasm. Consider inviting skeptics to demonstrations and sharing insights or results gained together with change agents, codesigners, or informants.

Review the stakeholders you placed in this quadrant of the map and pick one or two priorities.

INTERVIEW GUIDE:

TARGETED STAKEHOLDERS

Detailed description, quantity

INTERVIEW PURPOSE

INTERVIEW GOALS

1

2

3

INTERVIEW PRACTICALITIES

Duration, location

INTRODUCTION

Interviewer, interview context and purpose, data management

INTERVIEW PURPOSE

Setting the scene for the topic, getting the interviewee in a responsive mode

1

2

3

SUBSTANTIVE QUESTIONS

Deeper data, provocations for emotions, underlying motivations

4
